**Editorial Policy.** CANCER GENOMICS & PROTEOMICS (CGP) welcomes the submission of high quality original articles and reviews on all aspects of the application of genomic and proteomic technologies to experimental and clinical cancer research. The Journal's scientific spectrum includes: (a) molecular causes of carcinogenesis, cancer progression and metastasis; (b) structural and functional aspects of genes in the cancer cell; (c) advances in genomic and proteomic technologies applicable to cancer research; (d) anticancer drug design and drug development.

CGP will also accept abstracts and proceedings of scientific meetings for publication, following consideration and approval by the Editorial Board.

A main aim of CGP is to ensure the prompt and confidential review, and rapid publication of original works and reviews, generally within 1-2 months from acceptance.

For more information about CANCER GENOMICS & PROTEOMICS, IIAR and the Conferences, please visit the IIAR website: [www.iiar-anticancer.org](http://www.iiar-anticancer.org)

**Publication Data:** CANCER GENOMICS & PROTEOMICS (CGP) is published bimonthly online-only and open access by the International Institute of Anticancer Research. Each annual volume comprises of six issues. Annual Author and Subject Indexes are included in the sixth issue of each volume. CANCER GENOMICS & PROTEOMICS Vol. 1 (2004) and onwards appears online with Stanford University HighWire Press. All published articles are deposited in PubMed Central.

**Open Access Policy:** CGP appears bimonthly as an online-only open access journal through the Stanford University HighWire Press. Upon acceptance, Authors will be asked to pay an online publication fee of Euro 700.00 for articles up to 6 online pages (including figures and tables). Each additional excess page will be charged Euro 50.00. Color will not be charged. Authors from developing countries may apply for a 25% discount after the acceptance of their paper. CGP online will keep the volume and issue numbers, as well as page numbering.

**Copyright:** Authors retain copyright. The unrestricted *non-commercial* use, distribution and reproduction in any medium of CGP articles for academic reasons is allowed, provided that the original work is properly cited. The Authors grant the permanent right to the publisher to use any articles published in this journal without any restriction, including academic advertising purposes. PDF, XML and HTML files of all articles published in CGP are the property of the publisher.

Volume 10, Number 1, January-February 2013

## Contents

- \* Review: The Intriguing Options of Multispecific Antibody Formats for Treatment of Cancer. U.H. WEIDLE, G. TIEFENTHALER, E.H. WEISS, G. GEORGES, U. BRINKMANN (*Penzberg; Munich, Germany*) ..... 1
- \* Review: Genomics and Proteomics Approaches for Biomarker Discovery in Sporadic Colorectal Cancer with Metastasis. M. GONZÁLEZ-GONZÁLEZ, J. GARCIA GARCIA, J.A. ALCAZAR MONTERO, L.M. GONZÁLEZ FERNANDEZ, O. BENGOCHEA, O. BLANCO MUÑEZ, A. ORFAO, J.M. SAYAGUES, M. FUENTES (*Salamanca, Spain*) ..... 19
- Association of p21, p21 p27 and p21 p53 Status to Histological Subtypes and Prognosis in Low-stage Epithelial Ovarian Cancer. I. SKIRNISDOTTIR, T. SEIDAL (*Uppsala; Halmstad, Sweden*) ..... 27
- Identification by High-throughput *In Silico* Screening of Radio-protecting Compounds Targeting the DNA-binding Domain of the Tumor Suppressor p53. T. EICHHORN, C. HILLER, K. HIRSCHFELDER, M. FRANK, R.L. KRAUTH-SIEGEL, R. MÜLLER, R. MERTENS, T. EFFERTH (*Mainz; Heidelberg; Saarbrücken; Aachen, Germany*) ..... 35
- The Differential Expression of Vascular Endothelial Growth Inhibitor Isoforms, VEGI251, VEGI174 and VEGI192 in Human Clear-cell Renal Cell Carcinoma. N. ZHANG, P. WU, L. WU, D. SHAYIREMU, H. SHAN, L. YE, W.G. JIANG, K. GONG, Y. YANG (*Beijing; Hami, Xinjiang, PR, China; Cardiff, UK*) ... 47
- \* Reviews (pages 1, 19)

## Instructions to Authors 2013

*General Policy.* CANCER GENOMICS & PROTEOMICS (CGP) welcomes the submission of high quality original articles and reviews on all aspects of the application of genomic and proteomic technologies to experimental and clinical cancer research. The journal's scientific spectrum includes: (a) molecular causes of carcinogenesis, cancer progression and metastasis; (b) structural and functional aspects of genes in the cancer cell; (c) advances in genomic and proteomic technologies applicable to cancer research; (d) rational anticancer drug design and drug development. CGP will also accept abstracts and proceedings of scientific meetings for publication, following consideration and approval by the Editorial Board.

The principal aim of CGP is to provide for the prompt online publication of original works of high quality, generally within 1-2 months of final acceptance. Manuscripts will be accepted on the understanding that they report original unpublished works that are not under consideration for publication by another journal (print or online), and that they will not be published again in the same form. All authors should sign a submission letter confirming the approval of their article contents. All material submitted to CGP will be subject to peer-review by two members of the Editorial Board and by one suitable outside referee. All manuscripts submitted to CGP are urgently treated with absolute confidence, with access restricted to the Editor-in-Chief, the Managing Editor, the journals' secretary, the reviewers and the printers. The Editors reserve the right to improve manuscripts in terms of grammar and style.

The Editors and Publishers of CGP accept no responsibility for the contents and opinions expressed by the contributors. Authors should warrantee due diligence in the creation and issuance of their work.

*Open Access Policy.* CGP appears bimonthly as an online-only open access journal through the Stanford University HighWire Press. Upon acceptance, Authors will be asked to pay an online publication fee of Euro 700.00 for articles up to 6 online pages (including figures and tables). Each additional excess page will be charged Euro 50.00. Color will not be charged. Authors from developing countries may apply for a 25% discount after the acceptance of their paper. CGP online will keep the volume and issue numbers, as well as page numbering.

*Copyright.* Authors retain copyright. The unrestricted *non-commercial* use, distribution and reproduction in any medium of CGP articles for academic reasons is allowed, provided that the original work is properly cited. The Authors grant the permanent right to the publisher to use any articles published in this journal without any restriction, including academic advertising purposes. PDF, XML and HTML files of all articles published in CGP are the property of the publisher.

*Format.* Two types of papers may be submitted: (i) full papers containing completed original work, and (ii) review articles concerning fields of recognizable progress. Papers should contain all the essential data in order to make the presentation clear. Papers should be written in clear, concise English. Spelling should follow that of the "Oxford English Dictionary".

*Manuscripts.* All manuscripts should be divided into the following sections: (a) *First page* including the title of the presented work [not exceeding fifteen (15) words], full names and full postal addresses of all Authors, name of the Author to whom proofs are to be sent, key words, an abbreviated running title and the date of submission. (Note: The order of the Authors is not necessarily indicative of their contribution to the work. Authors may note their individual contribution(s) in the appropriate section(s) of the presented work); (b) *Abstract* not exceeding 150 words, organized according to the following headings: Background - Materials and Methods or Patients and Methods - Results - Conclusion; (c) *Introduction*; (d) *Materials and Methods* or *Patients and Methods*; (e) *Results*; (f) *Discussion*; (g) *Acknowledgements* and (h) *References*. All pages must be numbered consecutively. Footnotes should be avoided. Review articles may follow a different style according to the subject matter and the Author's preference. Review articles should not exceed 35 pages (approximately 250 words per double-spaced page) including all tables, figures and references.

*Figures.* All figures (whether photographs or graphs) should be clear, high contrast, at the size they are to appear in the journal: 8.00 cm (3.15 in.) wide for a single column; 17.00 cm (6.70 in.) for a double column; maximum height: 20.00 cm (7.87 in.). Graphs must be submitted as photographs made from drawings and must not require any artwork, typesetting, or size modifications. Symbols, numbering and lettering should be clearly legible. The number and top of each figure must be indicated on the reverse side. Color will not be charged.

*Tables.* Each table should be submitted on a separate page, double-spaced. Tables should be numbered with Roman numerals and should include a short title.

*References.* Authors must assume responsibility for the accuracy of the references used. Citations for the reference section of submitted works should follow the standard form of "Index Medicus" and must be numbered consecutively in the order that they appear in the text. Examples: 1 Sumner AT: The nature of chromosome bands and their significance for cancer research. *Anticancer Res 1*: 205-216, 1981. 2. McGuire WL and Chamness GC: Studies on the oestrogen receptor in breast cancer. *In: Receptors for Reproductive Hormones.* O' Malley BW and Chamness GC (eds.). New York, Plenum Publ Corp, pp.133-136, 1973. In the text, references should be denoted as: (1), (2-5), (6, 7) *etc.*

*Nomenclature and Abbreviations.* Nomenclature should follow that given in "Chemical Abstracts", "Index Medicus", "Merck Index", "IUPAC -IUB", "Bergey's Manual of Determinative Bacteriology", The CBE Manual for Authors, Editors and Publishers (6th edition, 1994), and MIAME Standard for Microarray Data. Human gene symbols may be obtained from the HUGO Gene Nomenclature Committee (HGNC) (<http://www.gene.ucl.ac.uk/>). Approved mouse nomenclature may be obtained from <http://www.informatics.jax.org/>. Standard abbreviations are preferable. If a new abbreviation is used, it must be defined on first usage.

*Clinical Trials.* Authors of manuscripts describing clinical trials should provide the appropriate clinical trial number in the correct format in the text. For International Standard Randomised Controlled Trials (ISRCTN) Registry (a not-for-profit organization whose registry is administered by Current Controlled Trials Ltd.) the unique number must be provided in this format: ISRCTNXXXXXXXX (where XXXXXXXX represents the unique number, always prefixed by 'ISRCTN'). Please note that there is no space between the prefix 'ISRCTN' and the number. Example: ISRCTN47956475. For Clinicaltrials.gov registered trials, the unique number must be provided in this format: NCTXXXXXXXX (where XXXXXXXX represents the unique number, always prefixed by 'NCT'). Please note that there is no space between the prefix 'NCT' and the number. Example: NCT00001789.

*Ethical Policies and Standards.* CGP agrees with and follows the "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" established by the International Committee of Medical Journal Editors in 1978 and updated in October 2001 ([www.icmje.org](http://www.icmje.org)). Microarray data analysis should comply with the "Minimum Information About Microarray Experiments (MIAME) standard". Specific guidelines are provided at the "Microarray Gene Expression Data Society" (MGED) website. Presentation of genome sequences should follow the guidelines of the NHGRI Policy on Release of Human Genomic Sequence Data. Research involving human beings must adhere to the principles of the Declaration of Helsinki and Title 45, U.S. Code of Federal Regulations, Part 46, Protection of Human Subjects, effective December 13, 2001. Research involving animals must adhere to the Guiding Principles in the Care and Use of Animals approved by the Council of the American Physiological Society. The use of animals in biomedical research should be under the careful supervision of a person adequately trained in this field and the animals must be treated humanely at all times. Research involving the use of human foetuses, foetal tissue, embryos and embryonic cells should adhere to the U.S. Public Law 103-41, effective December 13, 2001.

*Submission of Manuscripts.* Manuscripts may be submitted online (<http://www.iar-anticancer.org/submission/login.php>), via e-mail ([journals@iar-anticancer.org](mailto:journals@iar-anticancer.org)), or by mail (3 complete copies plus, USB stick, DVD, CD or floppy disk) to the Editorial Office.

*Editorial Office:* International Institute of Anticancer Research, 1st km Kapandritiou-Kalamou Rd., Kapandriti, P.O. Box 22, Attiki 19014, Greece. Tel / Fax: +30-22950-53389. E-mails: Editorial Office: [journals@iar-anticancer.org](mailto:journals@iar-anticancer.org). Managing Editor: [editor@iar-anticancer.org](mailto:editor@iar-anticancer.org)

*Galley Proofs.* Galley proofs will be sent by e-mail to the corresponding Author. Corrections of galley proofs should be limited to typographical errors.
